"You will remember, perhaps, that the head of the Federation of Labor, who had declared for my opponent, was anxious to carry the whole union labor vote against me, and as the ground for his action was my decision as a judge, I was put under the burden which I think no other candidate for the presidency ever had to bear, of explaining and defending in a political contest the decisions which I had made as a judge upon the bench. It was assumed by many who thought themselves familiar with the situation, that I was a mere lawyer."

Chicago, Sept. 17.—For the first time in 74 years Halley's comet, the heavenly visitor which spread terror century after century, causing emperors to abdicate, wars to be fought, and skeptics to bow down and worship, has been observed with the naked eye. The observation was made by Professor Burnham of the Yerkes observatory at Lake Geneva Wednesday and Thursday evenings, and two photographic negatives were secured.

Edmund Halley, an Englishman, observed this comet in 1682 and believed it to be the same flaming awe-inspiring ball that Charles II. had told him to be a divine sign placed in the heavens for his particular benefit, to abandon his throne after his appearance in 1556. On the basis of calculations that it belonged to the solar system and was traveling in a parabolic orbit around the sun, making the circuit in about 76 years, he risked his reputation on a prediction that it would reappear in 1758. The prediction was verified and placed Halley's name among the greatest of astronomers.

The comet is visible in the constellation Orion, southeast of the constellation Taurus and the Pleiades and near the path of the Milky Way. It is passing its perihelion point nearest the sun, early in the new year and will be plainly visible to everyone, near the constellation Pegasus, in February.

Belolt, Wis., Sept. 17.—E. J. Smith, who yesterday celebrated his ninetieth birthday, died last night of old age. Mr. Smith was the oldest citizen of this city. He came here in 1865 from New York and in the early days was a deputy sheriff, fighting stubbornly against the horse thieves who then infested the region. He is the father of E. R. Smith of this city, and was one of the founders, was president and for many years was vice-president of the Beloit Savings Bank.

E. A. Howell, for thirty years agent of the North-Western road, who began his service in the same way but later resigned. The people here are at a loss to understand the cause of his resignation.

Third Annual Gathering.
[SPECIAL TO THE GAZETTE.]
Duluth, Minn., Sept. 17.—The thirty-third annual meeting of the Minnesota Woman's Christian Temperance Union met in the Presbyterian church here this morning, with Mrs. Besse Laythe Seovel of Minneapolis presiding. The initial session was given up largely to a prayer and devotional service and the reading of reports from the general officers and organizers. The annual convention address will be delivered tomorrow by Mrs. Mary Harris Arner of Georgia. The visiting delegates are being splendidly entertained by the members of the local organization, and it is expected the convention will be one of the most interesting in the history of the organization in Minnesota.

WILLIAM B. STRONG LEADS

The List of Those Who Have Achieved

Success Through Perseverance

and Arduous Labor.

Fifty years a member of The Ga-

zette, William B. Strong, of California,

formerly a well-known resident, in

still on the subscription list of this

paper, for the paper and for the

printing done in the Gazette office,

preserved by Mr. Strong, and included

in a bundle of them in charge of his

son, F. M. Strong, president of the

Second National Bank of Beloit, Wis.

back in far as 1859 and 1862. Three

of these Mr. F. M. Strong has sent in

a letter to the Gazette, in which he

states that he considers the en-
"good enough to keep." The subscrip-

tions are for the "Janesville Morning

Gazette," which was then owned by

the firm of T. B. Bowen & Wilson, in-

cluding the partnership, Charles

Holt, T. B. Bowen, and Daniel Wil-

cox. Their offices were in the old

Lapin block on North Main street.

Janesville in the earlier days was

noted for its baseball players who

from here a number went out to

toward made their names well known

and wide. One of these was John

Cannon, manager of the Washington

American league team this season. But

the Newer City has also turned out

men who have made their mark in

baseball. One of these was William

B. Strong, who was station agent

at Janesville fifty years ago. Mr.

Strong went from here and entering

the employ of the Atchison, Topeka

& Santa Fe road became president.

He retired from that position and

gave up railroad work, buying a large

farm near Beloit, where he made his

home for a number of years. Failure

of health forced him to leave Beloit

to make his home in California.

Associated with Mr. Strong, when

he went to the Atchison railway, was

George R. Peck, another Newer City

resident. Mr. Peck assumed charge of

the legal department of the road. He

later transferred his interests to the

Chicago, Milwaukee & St. Paul road

and is now employed as general coun-

sel for that system.

Henry A. Tice, another Janesville

boy, was also connected with the

Atchison, Topeka & Kansas road. He

served in with Mr. Peck in the legal

department but transferred to the

operating and is now superintendent

of the Western division of the lines.

One who by his enterprise and en-

ergy has forged to the front is E. M.

Hyer, now head counsel of the North-

western railway with offices at Chica-

go. Mr. Hyer got his start in this

city studying law in the law offices

of Cassidy & Merrill. Judge Cassidy

was at the time of his death judge of

the state supreme court, and Mr.

Merrill was one of the founders of the

Northwestern Life Insurance company.

Mr. Hyer became district attorney

of this county, and before attaining

to his present position was counsel

for the road for this district of the

state of Wisconsin. His offices were

located in Milwaukee.

William G. Wheeler, Hyer's suc-

cessor, is another Janesville product.

Mr. Wheeler first attained fame as

district attorney when he carried on

the prosecution in the Stone murder

case at Fulton. His last position was

that of United States District attor-

ney for the eastern district of Wiscon-

sin.

Success attained by perseverance

and hard work are shown in the ca-

se of W. D. Culliton, a native of

this city, who has risen in the ranks

and is now assistant general manager

of the great Chicago & Northwestern

railroad system.

HEAVY BUYING HAS

RAISED THE PRICE

Lively Competition For 1909 Crop

Has Caused Good Prices Says

Edgerton Reporter.

The buying movement has been

pushed along under high pressure

this week though there are

some indications that the rush to the

green fields will soon commence to

subside for many of the dealers

saying have their orders about filled.

Under the stress of lively competition

prices have crowded up to little high-

er figures and the bulk of the sales

are above the 100 cent mark now.

Some reason outside of the fact

limits are pretty well cleaned up and

estimates are made that half the crop

is under contract to date. Sales

reported indicate the trend of prices:

Lara Blumby, 12a at 113¢35c.

Ole Quale, 20a at 104¢35c.

O. P. Nelson, 12a at 104¢35c.

John Plaband, 8a at 112¢35c.

John Vaseen, 6a at 106¢35c.

And. Severson, 10a at 106¢35c.

C. Peterson, 10a at 104¢35c.

Geo. Smith, 10a at 104¢35c.

A. J. Belland, 10a at 106¢35c.

M. Matheson, 8a at 106¢35c.

G. H. Dean, 6a at 106¢35c.

Robt. Maves, 3 1/2a at 112¢35c.

The harvest is going on rapidly and

the close of the week the bulk

of the crop is destined to be secured.

The warm, sultry weather this week

has brought just such condition that

producers shed their grain as the shells

are crowded, and it is by no means

improbable that some damage has

been sustained from this source.

Except for a slightly increased de-

mand for old feed the market has

little power. C. E. Matheson has pur-

chased 2500s lot of 46¢ from a White-

head packer.

Great Crop.

So many things have been able to

happen to the tobacco crop between

this and the harvest that it is almost

impossible for the government statist-

icians to attempt to publish monthly

bulletins concerning the condition of

the crop as a guide in determining

the final outcome. This is particularly

true of the report of September

1st which gives the Wisconsin crop

the very low figure of 73 per cent, or

four points lower than that of August

1st. Now, about the truth of the mat-

ter. Whether the agents of the

government were aware of it or not,

but September 1st found the Wiscon-

sin tobacco crop the most promising

for several years past at that date.

A phenomenal growth following the

July drought all through August brought

the fields up to a harvest that looked

like a 100 per cent year. Only for the

frosts that have curtailed the crop

in the northern sections, the yield

would be an enormous one. In the

southern counties a tremendously

heavy crop is going into the sheds,

that for size and soundness of leaf has

not been equaled for years. Packers

are already taking of a yield of four

cans to the acre, which shows the

futility of publishing to the world

that Wisconsin tobacco September

1st was a 73 per cent crop.

The Ladies Aid met with Mrs. Wm. Ehringer, Thursday.

Mrs. Carrie Robertson, who has been visiting at Mr. and Mrs. Hemingway's, returned to her home in Omaha, Neb., Monday.

BATTLE ROYAL AT
THE FAIR GROUNDS

Parker Pen And Machine Co. Teams Will Be Pitted Tomorrow In Fical Game For Championship Mug.

Tomorrow afternoon at the fair grounds will be played the all-important game of the Commercial baseball league—the contest which will settle the question as to the championship which was left undecided at the end of the season. To the winner will be awarded the beautiful loving cup presented to the league by Mr. H. L. McSannara. In all ways the contest promises to be a battle royal. Both sides cover the possession of the trophy and will put forth their best efforts to win the game.

The Mackinnon company is placing its trust in the hands of its battery, butters and Dobbins. Butters has been forced by illness, to retire for some time from the national pastime, but has been at work three weeks, and the "plovermen" are confident that he will show his old time form when he goes into the game tomorrow. On the other hand, the Parker Pen company relies on Dewey's strong arm to puzzle the "Mackinnons" and on Hall to buck up Dewey behind the bat.

The attendance at the game will be fully as large as any at any other contest ever held in the city. Three of the factories represented in the league will be closed for the afternoon to allow their employees to witness the game and the workers in these shops will turn out in full force. A delegation of the fair sex will also be there to cheer their favorites and help them win the game.

From the other plants in the league as many of the workmen as are able to do so will attend, and besides these there will be a large crowd of enthusiastic followers of the game, friends of the teams engaged in the contest.

Ladies will be admitted free to the grand stand but for the men and boys an admission price of twenty-five cents will be charged. The proceeds will be used for a banquet for those who have played in the league.

Last, but not least the umpire will be the cynosure of all eyes. It was desired that a man be secured whose decisions would be satisfactory to both sides and who would be perfectly fair and equitable in all things. The man selected was E. W. Miller, who has acted as arbiter of several previous contests.

CRUSADE AGAINST TUBERCULOSIS.
That which is thoroughly aroused in warfare against the white plague, evidenced by the fact that legislation of 28 states have appropriated aggregating \$1,000,000 to fight disease and strongest laws have passed to aid in the work.

The Chris Stamp, so popular last year, was used again at the holiday season and the people of Wisconsin were served by a little emblem expressing devotion for the badge state.

One of the curious and extraordinary dollar fashioned by human skill, when made for and donated to the Anti-Tuberculosis Association by Mr. Adolf Viskel of 418 East Water, Milwaukee.

The dollar is used for very serious purpose, will show the methods employed testing some of the most tragic human deformities. It is a life model in miniature of a human body for which type models of the most complex apparatus devised by modern science for treatment of tuberculosis, the spine, the hip and the knee, at, have been applied.

The Exhibit is also a model used at the International Congress and is the first of its kind, so far as known to officers of association to be used elsewhere in this country. The model will first be shown at the exhibit of the association at the State Fair. It will serve to demonstrate that tuberculosis is not cured merely by the lungs but may live in other parts of the body.

"In this crusade against the White Plague, we are carrying a war against many other forms of disease, which is commonly known as consumption," says a physician who is a member of the association. "The tuberculosis germs work in many ways other than lung disease. The crusade is designed to lessen much pitiable deformity as well as the needless deaths from consumption.

Wisconsin is to be congratulated on the interest which her citizens are evidencing in this humane work and good results are already apparent.

COST OF LIVING.
One of the most fruitful topics of complaint is the cost of living and never tire of discussing the outrageous prices charged for the most common necessities of life. The trust and combine is held accountable for many of these outrages and the "robber" tariff comes in, just now, for its full quota of censure.

But what are the facts in the case? Simply these. The times have been so good for a decade that the luxuries of life have become necessities, and the cost of luxuries in the average home is double and frequently quadruple the cost of necessities. A writer in the October number of Technical World has tabulated some very interesting figures along this line. He says very tersely:

"The Cost of Living is all the money you have.

"Some people manage to make their living cost a great deal more than they have; but the ultimate results of such a policy are so likely to be unpleasant that the plan is not to be recommended.

"Of course it costs more to live now than it ever did before. It ought to cost more; for people fortunate enough to live in this blessed land in the twentieth century get more different kinds of fun out of life in a year

than their ancestors did in the whole course of their existence, and they get it in large quantities. Things that would have been regarded as luxuries fifty years ago, or perhaps never dreamed of by the most extravagant imagination, have become the ordinary necessities of life for the present generation. Naturally these extra things cost money.

"But whether it is really necessary that the cost of living today should be one hundred per cent or more of one's income is another question. Any one who would rather have the cost than the living doubtless could find a few items of expenditure that might be dropped off."

He finds that we spent last year for farm wagons, trucks and drays \$32,000,000 and for automobiles and carriages \$160,000,000. Our horse and buggy bill was \$101,000,000, and nearly a round billion was spent for amusements. The drink and tobacco bill of the nation is more every year than the meat and bread bill, and extravagance in dress is about as appalling.

"If the women folk could find anything fit to wear on this side of the Atlantic we could save from the cost of living \$4,852,548 for imported hats and bonnets, and \$10,755,954 for feathers and flowers, \$33,611,010 for lace and embroideries and \$15,918,149 for imported furs or \$65,137,661 for imported feminine flairs alone. And it does seem as though we could skimp along without \$197,850,000 a year for foreign and domestic silks. But what woman wants to do it? Even the \$7,200,423 we spent last year for imported toys would help some if we had the money. And it does seem as if the children could be kept quiet with our \$5,557,000 worth of home made toys and an occasional judicious spanking.

"Perhaps the better method of grasping the idea of the way in which former luxuries, since becoming necessities have swelled the cost of living, which causes so much talk, would be to tabulate a few of the principal items so that they may be comprehended at a single glance. For the sake of brevity, foreign and domestic merchandise may be included in one item. Here they are:

Item	Annual Cost
European trips	\$170,000,000
Railroad (pleasure trips)	173,934,202
Theatres and other amusements	250,000,000
Yachts	25,151,114
Automobiles	110,000,000
Carriages	55,750,276
Planes	48,000,000
Talking machines	16,000,000
Amusement and fireworks	21,930,821
Liquors, mineral and soda waters	605,921,000
Cigars, tobacco and smokers' articles	358,285,564
Billiard tables	2,223,022
Candy	101,578,000
Perfumery and cosmetics	12,253,253
Jewelry	93,506,443
Imported millinery	15,607,502
Laces and embroideries (imported)	33,611,010
Silks	197,850,000
Imported toys	7,200,423
Fancy articles (not specified) (domestic only)	11,961,513
Total	\$2,394,270,999

"So, then, a few of our more important superfluities which have grown into necessities, at wholesale prices in round numbers total two billions three hundred millions. In 1908 the total expenditures of the United States government were \$659,552,125. In other words the cost of these superfluities would run the national government nearly four years; or, if figured at the actual retail cost to the consumer, nearly eight years. However, it is not at all likely that any one will forego a trip to Europe, or to the theatre, or a silk dress for his wife or a toy for the baby in order to contribute the money thus saved toward the running expenses of the government.

"Yes, the cost of living is very high. Won't somebody please show us how to make it higher?"

There is no one department of government that serves the people so universally as the postoffice department and every effort should be exhausted to increase the service. Yet every new secretary of this portfolio feels called upon to go his predecessor on by cutting down expenses and increasing the revenue. There is no more reason why this department should be self-supporting than any other. It is simply one of several necessary departments and entitled to treasury aid as much as any other. The people should have penny postage and rural routes in all parts of the country.

The Philanthropic Northwestern, Mr. Strangely paper, does not endorse very much over that gentleman's announcement as a candidate for governor, and says that it is premature and untimely. The paper is right. The average citizen represents 70 per cent of the voters who care so little about politics that they decline to take part in a primary election. The might tolerate a 60-day discussion devoted to office-seekers, but they can't wait for a steady diet.

It is estimated that \$2,000,000 was spent in railroad fare by fortune-hunters who attended the government land lottery recently held at Spokane, Wash. This was more than the land was worth, and the investors stood one chance in a hundred of drawing a prize. The Louisiana lottery was a bad proposition, but the land lottery seems to be perfectly legitimate, another case where legally right is morally wrong.

Heart-to-Heart Talks.

By EDWIN A. NYE.

TO A MOTHER.

Dear madam—
Do you realize that it is a great mistake on your part to overindulge your daughter?
Naturally you try to shield your child. Naturally you try to save her from hardships. Naturally you efface yourself more or less and sacrifice yourself for her sake.
That is the mother of it.
But your self inflicted martyrdom may work serious harm to the daughter.
I have in mind a good mother who loved and pinched and economized, hardened her hands, bowed her back and shortened her life that her pretty daughter might attend a fashionable "finishing school."

The daughter graduated and—
Returning home, found herself out of touch with the old farm ways. She had learned new ways. You say her education should have broadened and sweetened the girl, but it did not. It simply unfitted her. With new appetites and new ambitions she became a torment both to herself and to her mother.

The sequel?
In sheer desperation the fretting, discontented girl ran away with a smooth adventurer and was finally ruined.

An extreme case?
Maybe. But the result in this girl's case was the legitimate outcome of the false maternal policy that made the girl believe she must have whatever she wanted and that everything must be sacrificed for her "career."

She is a rare child who can be unduly indulged and potted without harm to her character.
The tender solicitude of a doting mother is of course noble in its self abnegation, but when carried to the extreme it is dangerous.
It may seem harsh to compel the daughter to share the mother's burdens, but it is best.
Let your girl face the realities.
You can give her a sane view of life by teaching her how to meet and conquer hardships. Let her bear burdens and grow strong in doing so. Put responsibilities on her and let her feel the full weight of them.
There is only one way to make character. Ease and freedom and luxury and absence of work will not do it. The fiber of womanliness is developed only by responsibilities and care and in overcoming obstacles.
Do you want your daughter to be a strong, noble woman?
Then put her full share of life's load on her young shoulders and teach her to carry it obediently and cheerfully and gracefully.

Children's Educators

The human foot should be allowed to grow naturally. To shape it to the changing fashion is to force the soft pliable, growing bones, cords and muscles into unnatural and deformed shapes. The foot thus pinched from its natural shape is often a source of suffering in later life. These pictures show the right and wrong way of shoeing the youngster's foot.

Flexibility, lightness, and wear are provided by specially selected soles. Soft, pliable leather, that readily yields to every movement of the tender foot, is selected for the uppers of the Educators.

Ask for them. If you would have your child thank you for perfect feet in later life, try these nature-shape Educators.

DENTAL CHAT

It certainly is pleasant to have a man come into my office and talk like one old the other day. Said he, "Dr. Richards, I wish some more dental work."

"The work you did for me two years ago is there yet. Sound and all right."

Yet the man to be critical and get to be a knacker.

Really, I think it requires studied effort to get the habit of seeing something to praise in people.

But it pays you personally to see the good in people around you and it brings out the best there is in the man whom you thus encourage.

Now I want you to see the good that is in my work.

I am doing my best to put out reliable work for everybody.

At the same time, I keep busy trying to avoid causing folks pain in all my work.

People notice this once in a while and that helps some.

Come in and see me about that long needed work in your mouth.

On Vacation Trip: Charles L. Field, Municipal Court Judge, leaves tomorrow on a two weeks' vacation trip which will be spent in canoeing and camping in Oneida County near Rhinelander. Justice Charles H. Lange will assume the duties of municipal judge during Judge Field's absence.

One Lonely Drunk: William Neider, a former resident of town, was the only guest entertained by the police last night. He had broken his pocket rope and was wandering about aimlessly when an officer took him in tow and locked him up for safekeeping.

Line Again Open: Through passenger and freight service was resumed this morning on the Mineral Point Division of the C. & M. & St. P. R. R. The line was washed out by the heavy rains last Monday near Matfield and Mineral Point and it has been necessary to transfer passengers around the wharves during the past four days.

Automobile Parties: Dr. Colony, O. C. Colony, Mrs. O. C. Colony, and F. E. Colony of Janesville arrived here in an automobile last evening and were registered at the Hotel Myers. A Madison party consisting of F. C. Hutson and party were registered at the same hotel this noon.

SPECIAL SESSION OF
BOARD CALLED OFF

County Supervisors Will Not Meet to Consider Bridge Question—Chairman Appoints Committee.

The special meeting of the county board of supervisors which was to have been held on September 21 has been called off. The town board petitioned for a meeting to secure county aid in building a bridge over Turtle creek, near Beloit, and the county clerk sent out the notices to the various members, but it has since been learned that under the new law this is not necessary. The new statute gives the chairman of the county board the right to appoint a committee to confer and act with the town commissioners in case of such an emergency. L. E. Gottle is the chairman of the county and notice of the appointment was today sent by Mr. Gottle to the three gentlemen selected by Mr. Gottle for this committee. They are N. M. Gleason, 121 Crail and U. G. Miller.

DR. AND MRS. FIFIELD'S
INFANT SON DIED TODAY

Little Thomas Patton Fifield Gave Up Unequal Struggle at the Age of Twelve Days.

Thomas Patton Fifield, the infant son of Dr. and Mrs. George W. Fifield, died early this morning at the age of twelve days. The remains were laid at rest at five o'clock this afternoon. At Dr. and Mrs. Fifield's request friends refrained from sending flowers. The condition of Mrs. Fifield is reported to be slightly improved today.

Old Deed Recorded: A deed executed on April 16, 1881, was recorded yesterday in the register of deeds' office. It transfers a lot in Edgerton. Acknowledgment was taken by Justice of the Peace Jacob West. In making up an abstract of the lot it was discovered that the deed had never been recorded and a search among the old papers of the grantee revealed it.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON

WHICH is better, no change at all or a change for the worse? Personally I have no doubts on that subject and for that reason I simply cannot understand the woman who clothes herself by rotation—a blue gown this year no matter how unbecoming blue may be, simply because she wore brown last year and green the year before.

I have a friend who is charming in brown or blue. She is sallow and homely in green.

"I've worn brown and blue so long I think I'll get a green suit for a change," I heard her say the other day.

There never was a woman who didn't want to look her best as much of the time as she possibly could. Also, there never was a woman who didn't look her best in certain colors.

And yet how few women add the two and two of the desire and the means together, to make the four of easy fulfillment, by wearing certain colors and only those colors.

Mind you, I don't say "that color." I don't mean to make yourself conspicuous by making a fad of some particular color and never wearing any other. Leave that to actresses who need the advertisement and the woman in private life who don't know any better.

What I mean is to find out by experiment and study what particular shades are the most becoming to your coloring and to stick reasonably close to them.

Perhaps you have not an artistic eye and don't feel competent to select for yourself. Then why not get your most artistic friend to help you?

I should like to offer a few rules but unfortunately I don't think there are any definite rules to go by.

They say one should try to match one's eyes, and undoubtedly brown-eyed people usually look very well in brown but they frequently look equally well in blue.

From my observation I should say that the old theory that blondes should wear blue and brunettes pink is entirely untrue. I have seen a great many pale brunettes who looked their best in blue and several blondes who couldn't wear blue at all.

The only way to get your colors is by experiment.

Try the whole range of colors before you decide. There may be some odd shade of lavender, some tawny brown, some peculiar blue that will make you look better than you would have dreamed you could, and it would be a pity for you to miss it.

Do not be ashamed to make a serious study of this thing.

It is a serious duty for every woman to look as well as she can, for by so doing she adds to the sum of beauty in the world.

And any one who does that certainly deserves the gratitude of his fellow beings.

Ruth Cameron

DELEGATES NAMED BY W. C. T. U. LADIES

Mrs. Helen Haffrey Will Go To The State Convention in Baraboo—Address By Miss Palmer.

At the W. C. T. U. meeting held Wednesday afternoon, Mrs. Helen Haffrey was elected delegate to the state convention to be held in Baraboo Oct. 1 to 5. Mrs. L. Winslow was chosen alternate. For the county convention to be held in Beloit Oct. 11 and 12, Mrs. George Jacobs, Mrs. J. Collingsworth and Mrs. Faltner were elected delegates, with Miss Mae Shuler, Mrs. Lynn Whaley and Mrs. Alverson as alternates. Miss Bessie H. Palmer, one of the Illinois workers was present and gave a very interesting account of her temperance work among the young people of all classes in Chicago. Her father was a proprietor of one of the saloons invaded by the temperance crusaders years ago. He has since been a noted temperance worker and was a sincere friend of Frances E. Willard. Miss Palmer's address was exceedingly encouraging and inspiring. Mrs. Faltner was invited to go to Chicago and ride with her in the great temperance parade to be held Sept. 25.

The first anniversary of the Junior Loyal Temperance Legion was celebrated yesterday afternoon at the Mary Kimball Mission. There was a short business session conducted by the children, after which the invited guests were treated to a program, as follows:

Song—Entire Legion.
Chorus—Daisy Jones.
Reading—Marion Ashcraft.
Song—Stanley Harwood.
Recitation—Inez Baker.
Reading—Ruth Servino.

A quartet of four boys, namely, Bob Mills, Luther Mills, Willie Gregory, and Jimmie Gregory, supplied one number on the program, the song "Marching Onward," which was enjoyed by all.

Miss Helen Palmer of Chicago was present and gave an interesting talk on her work in the Chicago slum district.

The history of the year's work was given, showing a most excellent record. At the time of its organization fifty were enrolled and the membership had increased to one hundred and sixteen during the past year.

Permanent headquarters have been established at what is known as the Mary Kimball Mission, and this year promises a great work.

Unearth Old Roman Camp.

In connection with the excavations of the great Roman camp at Caesars, Montgomeryshire, Prof. Hosanquet, who is in charge of the exploring party, has succeeded in opening up the western portion of the camp, unearthing a complete hot-air system situated beneath the floors of the rooms. The floors were supported on a number of stone pillars two feet square and two feet high. Pipes were laid beneath to carry the hot air from the furnace and these have been found in an excellent state of preservation. Outside the huge rampart of clay the workmen have come across trenches which surrounded the camp. The granary has been opened up for its whole length and measures 93 1/2 feet. This building was strongly built and was roofed with slabs of stone.—London Standard.

Growth of African City.

Khartoum is a rather young city, having been founded in 1823 by Mohammed Ali, but it has known many fluctuations in prosperity during its short life. A population of 40,000 in 1885, dropped in the twenties to 14,000, rose again to 70,000 before the Mahdi's revolt, and in 1901 was given 20,000. Its Arabic name of "Khartoum" is suggested by the shape of the tongue of land on which it stands at the confluence of the two Niles. Since 1901 Khartoum has begun to attract European visitors by its salubrious climate, and as the starting point for all travelers going inland by the Nile route, it is rapidly increasing in prosperity and importance.

Preserving Canadian Fish.

In compliance with the new Canadian regulations, American fishermen must now obtain licenses, and the rule limiting the day's catch to eight black bass to a fisherman will be rigorously enforced. In the Bay of Quinte, Ontario, a small cruiser is to do duty in enforcing the laws. It is said that some yachts in past seasons took from 80 to 150 bass in a day's fishing.

Australia Exports Rabbits.

Australia has earned her pest into a profitable industry. During the last five years 14,433,000 frozen rabbits have been exported from Victoria, principally to England; also 96,242,000 skins, while 6,000,000 skins went into local consumption, making a total of 103,242,000 skins.

A Perfect Pup.

At the Peking palace dog association show, held in London, Mrs. Cross's China dog Chu-Kar took Piermont Morgan's prize of 100 guineas. Mrs. Cross refused a check for \$25,000 down for the little Chink—about \$200 an ounce. Plenty of dogs in China, but this was a perfect palace pup.

Boston to Have World's Fair.

Boston has launched a project for a great world's fair in 1920, to commemorate the three hundredth anniversary of the landing of the Pilgrims and the founding of New England.

LADIES GAVE CARD PARTY AND A DANCE

Auxiliary to A. O. H. Entertained at Party at Assembly Hall Last Evening.

Ladies of the Auxiliary to the A. O. H. entertained last evening at an enjoyable card party and dance held at Assembly Hall. The first part of the evening was devoted to cards, the ladies' first prize being captured by Mrs. Kelley and the second award by Mrs. Ed. Hoylin. First honors for the gentlemen were won by Joe Flock, Mr. Boos securing the second prize. Following the card playing refreshments were served and the rest of the evening was devoted to dancing, one hundred couples assembling on the floor. Knott & Hatch's orchestra furnished the music.

ARTISTIC PRESS -WORK IS PRAISED

Chicago Furniture Journal Likes Catalogue Supplement Which Gazette Printed for Hanson Company.

The Furniture Journal, a pretentious and highly attractive trade magazine published in Chicago, likes the form and content of the booklet recently gotten out by the Gazette Printing company for one of the flower city's leading industries, and devotes a page thereto. Here is the opening paragraph: "The Hanson Furniture company, Janesville, Wis., issued a supplement to its catalogue last July showing almost new tables notable for the absence of carvings and for unusual cleanliness and symmetry of design. The supplement was intended for insertion in the regular catalogue and was printed on the same high grade paper, accompanied with a loose sheet of 'Old Stratford' deck-edge white laid book, which was the vehicle for an extremely elegant and straightforward-shoulder talk to the steady as well as the prospective customers."

Substitute for Bridge.

"The Intellectuals" is the name by which a number of commuters who travel daily between their summer homes and New York are known by their fellow-travelers. They make what they call "a white horse pool" every morning. They sit with their faces close to the windows, looking for white horses along the line of the road. The man who guesses nearest to the number encountered gets the pool.

Nice Man.

Two young women boarded a crowded street car and were obliged to stand, says the Washington Post. One of them, to steady herself, took hold of what she supposed was her friend's hand. They had stood thus for some time, when, on looking down, she discovered that she was holding a man's hand. Greatly embarrassed, she exclaimed: "Oh, I've got the wrong hand!" Whereupon the man, with a smile, stretched forth his other hand, saying: "Here is the other one, madam."

The Dirty Face Fad.

The latest craze among the ultra-fashionables of London is to have dirty faces. Some few years ago the same young men developed a fancy for perambulating the streets without hats, but the coming of the automobile changed the mode of showing that you are not quite as other men. The idea is to carry just enough dirt to look like fast, long distance riders who have had no time to remove the dust of travel.—Dundee Advertiser.

Those Big Hats.

The hats worn by the women during the first half of the year have been enough to frighten Satan, but you will note that the marriages have not fallen off any.—Galveston News.

Jail Sentence Stops Wedding.

Chicago, Sept. 17.—Thomas Hammond, who was to have been married in a month, admitted to Judge Bell that he had stolen groceries, tobacco and clothing in order to set up housekeeping. Instead of a wedding Hammond was given a sentence of a year in the house of correction.

Contract to Race Man.

Washington, Sept. 17.—P. W. Gallo-way of Racine, Wis., was today awarded the contract at \$7,112 for building the harbor entrance piers of the Great Lakes Naval Training station at North Chicago.

Mrs. Nelson Morris Dead.

Chicago, Sept. 17.—Mrs. Nelson Morris, widow of the Chicago packer, died yesterday at Pontchartrain, France, as a result of injuries received in an automobile accident which occurred near there September 10.

Wireless Cure For Rheumatism

Electric Current From Electrodes Proves An Astonishing Remedy For Rheumatism and Other Diseases.

Now Within Reach of Every Sufferer.

You hear an click, you feel an current, yet no burning, no pain in the joints and nothing, restoring current is sent into every nerve, every vessel and organ of the body by means of a remarkable new discovery called Electrodes.

Proofs of the results of Electrodes, in cases of rheumatism, especially, and nervous afflictions and organic diseases, have caused a transformation in scientific theories. Electrodes are different from any other electric appliances, since they are not connected with the body by wires, but are actually in service. The current generated has been found to have an astonishing effect on blood circulation, and the nerves, thus giving quick relief for rheumatism, as well as indigestion, back pain, kidney troubles, flatulence and liver complaints, nervous prostration, weak nerves, headaches and weak heart.

Electrodes in appearance are peculiar metallic rods as placed in the joints and arch of the shoes are to be unobtrusive to the wearer. They never cause discomfort. No medicines or temporary drug stimulants are used or needed. Right from the start the system undergoes complete, healthy change by means of this electrodynamic current. So remarkable are the results of these Electrodes that they are now being sold under a legal binding signed contract with each purchaser to give quick relief and entire satisfaction. They are sold now at all drug stores at only \$1.00 a pair and the draught signs a contract that if they are not absolutely satisfied with the results of Electrodes at the end of a full 30 days their money will be refunded.

Real Deep Sea Fish.
In the beginning of the last century halibut emigrated to deeper and deeper water, until they are now caught in depths of 150 to 350 fathoms, in deep sea valleys. Halibut capture end by stunning them with strokes of the tail. The role of a 350-pound halibut weighing 41 pounds, was over two feet long and contained more than 2,000,000 eggs, says Prof. David Starr Jordan.

We Buy Our Merchandise From Specialty Houses

WHY?

BECAUSE WE HAVE LEARNED THAT SPECIALTY HOUSES GIVE BETTER VALUES FOR THE SAME MONEY.

WHY?

BECAUSE THEY MUST USE SOME STRONG ARGUMENTS TO INDUCE MERCHANTS TO DRAW AWAY FROM THE LARGE JOBBER HOUSES, WHERE THEY CAN BUY EVERYTHING THEY WANT WITHOUT SHOPPING AROUND.

WE CAN SAVE TIME AND LABOR BY BUYING FROM JOBBERS, BUT WE CANNOT GIVE YOU THE VALUES IF WE DO.

WE PREFER TO GIVE YOU VALUES.

THE DRESSIEST YOUNG MEN WEAR

Sophomore, Hirsh-Wickwire or Viking

System Clothes

Each designed to meet particular tastes of particular men who want their clothes to suit them, not only as to wearing quality, but as to style, fit and trimmings. Rehberg's three stores—clothing, furnishings and shoes—has won its way into the good will of the trading public on the merit of its merchandise, excellence in selections and a choice of styles that win approval. There is a fall suit here for every man. In our unexcelled assortments you will find a style to suit your fancy and your purse.

Viking Clothes Are Very Popular With the Young Men.

This line of clothing embraces all the college styles, with all novel trimmings and distinctive "amateurism" of design desired by the younger set who is the most critical of judges in regard to clothes. Viking clothes will please because they are natter, tastier and express the ultra fashionable ideas for fall better than any other make. Priced \$15 to \$25

Sophomore Clothes for Good Dressers

Built on more conservative lines, yet with an air of distinction that at once characterizes the wearer as a man of refinement and good taste. You will know what is correct in clothes for fall as soon as you see the Sophomore models for this season. It's fully worth all it costs to be well dressed and to the young business man this line points the way. Priced \$20 to \$25

Hirsh-Wickwire Clothes Rival the Custom Made.

Authoritative styles are absolute in this line of clothes. They are built for men of more sober tastes, yet who care to be correctly dressed. All hand tailored, finely finished, all pure wool goods and so far as styles are concerned they are far superior to custom tailored garments at twice the price, \$20.00 to \$30.00.

Boys' New Fall Clothes

School Viking Suits, with two pairs knickerbockers, all-wool fabrics that will stand lots of hard wear and retain their color, many styles to select from, double breasted, form-fitting coats, derby back, cuff on sleeves, flap on pockets,

trousers cut full, all sizes to 17 years, durable, stylish, special \$5.00
Boys' Suits, nifty form-fitting coat, long roll lapels, trousers cut full, blue serges and fancy mixtures, all wool, worsteds and cashmeres, new fall shades, sizes 9 to 17 years \$6.50, \$7.50, \$8.50

MILL ENDS

Mean goods that fall short of forty or fifty yard lengths, requisite for export purposes. Identical in quality, style and design with the full piece, still not to be classed with regular goods, because they are wanting in length—a thread missing in napkins—a slight discoloration in some fabric—crooked or careless stitching in underwear—a coarse thread in hose. These are "MILL ENDS" characteristics. None of these slight flaws matter to the customer, but they prevent the mill or factory from selling goods at a profitable price. You will pay twice or thrice the money for the same goods at other stores.
